

*B3
cont.*

including [receiving in] passing through each of the openings a [first] second portion of a member which [has a second portion which] is shaped to form with said respective panel an openable eyelet so that a first portion of the member is at least partially received in the respective opening, receiving the cables in the eyelets respectively while the eyelets are open, and attaching the first member portions to the panels respectively to close the eyelets.

Remarks

An Information Disclosure Statement is enclosed herewith.

Each of the independent claims 15 and 24 has been amended to more clearly define what Applicant regards as the invention.

It is respectfully submitted that the claims, as amended, are patentable over the references cited in the enclosed Information Disclosure Statement as well as all other art of record.

It is now respectfully requested that this application be passed to issue.

Respectfully submitted,

James C. Simmons
